## DETAILED ACTION

### *Election/Restrictions*

1. Applicant's election without traverse of Species I in Paper No. 6 is acknowledged.
2. Claims 8-17, 19, and 20 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 6. It is noted that applicant's selection of claims 10-16 and 19 do not read on the elected species and thus are withdrawn by Examiner.

### *Claim Objections*

3. Claims 3 and 18 include the following informalities: in claim 3, line 2 "form" should be changed to --from--; and in claim 18, line 2, "shall" should be changed to --shell--. Appropriate correction is required.

### *Claim Rejections - 35 USC § 112*

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 4 and 6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 4 contains the trademark/trade name "COVER LITE". Where a trademark or trade name is used in a claim as a limitation to identify or describe a particular material or product, the claim does not comply with the requirements of 35 U.S.C. 112, second paragraph. See *Ex parte Simpson*, 218 USPQ 1020 (Bd. App. 1982). The claim scope is uncertain since the trademark or trade name cannot be used properly to identify any particular material or product. A trademark

or trade name is used to identify a source of goods, and not the goods themselves. Thus, a trademark or trade name does not identify or describe the goods associated with the trademark or trade name. In the present case, the trademark/trade name is used to identify/describe a type of material and, accordingly, the identification/description is indefinite.

Claim 6 contains the trademark/trade name “VELCRO”. Where a trademark or trade name is used in a claim as a limitation to identify or describe a particular material or product, the claim does not comply with the requirements of 35 U.S.C. 112, second paragraph. See *Ex parte Simpson*, 218 USPQ 1020 (Bd. App. 1982). The claim scope is uncertain since the trademark or trade name cannot be used properly to identify any particular material or product. A trademark or trade name is used to identify a source of goods, and not the goods themselves. Thus, a trademark or trade name does not identify or describe the goods associated with the trademark or trade name. In the present case, the trademark/trade name is used to identify/describe hook and loop fastening material and, accordingly, the identification/description is indefinite.

#### ***Claim Rejections - 35 USC § 102***

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

7. Claims 1-6, 18, and 21 are rejected under 35 U.S.C. 102(b) as being anticipated by Montgomery

Montgomery discloses a vehicle storage device comprising:

- A frame (12);

- A material covering (10, Column 2, lines 26-30) covering at least a portion of the frame and defining a storage space within the covered frame;
- A mounting plate (68, 70) movably attached to the frame through the material covering the frame;
- Clamps (hook portion of 68) attached to the mounting plate capable of securing the device to a ladder attached to a vehicle, to the same degree claimed;
- The frame comprises a plurality of frame members (34, 36, 38) fitted together to define a space within the frame members;
- The frame members are plastic (Column 2, lines 51-55);
- The material covering is cloth material (Column 2, lines 26-27);
- An access portal (14);
- A connection device for securing the access portal to the material (Column 2, lines 33-35);
- The connection device for securing the access portal is a zipper; and
- The device further comprises a recreational equipment carrier (Column 1, lines 16-17).

***Allowable Subject Matter***

8. Claim 7 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Conclusion***

9. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Nutto, Jackson et al., Blackburn et al., and VanSon are cited for vehicle storage devices.
